SAVOUR THE MOMENT

As a guest at Thermëa Spa village you will be tempted by tantalizing aromas carried by the wind from their eateries.

Chef Melissa Ross and her team take you on a culinary journey offering fresh farm-to-table ingredients and flavours that are inspired by the land. Quick bites, tasty dishes, classic meals and the culinary arts all roll in to one to become an integral part of your day at the spa village. Three locations to choose from: **Le Resto**, **Biergarten** and **The Lounge**.

**You must be a guest of the thermal experiences to dine in the restaurants.*

Meet The Chef

Chef Melissa Ross | Thermëa

Chef Melissa Ross arrives at Thermëa following a career rich with experience in Toronto hotels. Some of her favourite memories in the kitchen were during the Toronto International Film Festival and travelling around the GTA bringing catered food to unique locations.

Nonetheless, it is here, at Thermëa, that Chef Melissa feels she belongs. With a team of like-minded and driven individuals who strive to elevate the visit of every spa village guest through a fantastic dining experience, she thrives. Her hope is that when visitors dine at one of Thermëa's three dining outlets, they feel the love and care that the entire food and beverage team has put into each and every dish.

Although there is a plethora of reasons one may return to the village time and time again, Chef Melissa hopes the dining experience features highly on the list of memorable moments spent at Thermëa.

About Thermëa Spa Village

Thermëa has taken the spa experience and transformed it into a wellness village. The Spa village is the first of its kind, with state-of-the-art installations and buildings reminiscent of a distant past when life was strongly connected with nature and steeped in tradition. As a guest you enjoy sauna rituals, bathing area, breathtaking view and soothing experiences throughout the grounds. In between the rest, a guest can discover the three culinary universes at one of the three eateries.
